Incident Investigation Analysis

Unsafe Conditions Environment (Choose Any That Apply))	Condition Change	Congestion	Fire Hazard	Improper Storage
	Inadequate Procedure	Inadequate Training	Inadequate Warning	Inadequate Guard
	Poor Housekeeping	Poor Lighting	Poor Ventilation	Road Conditions
	Tripping Hazard	Weather		

Unsafe Acts	*Unsafe Acts: An unsafe act is a human error or personal mistake resulting in an incident, injury, etc. The unsafe act might be deliberate or committed due to the absence of knowledge, ignorance, or forgetfulness*	
Unsafe Acts People (Choose Any That Apply))	Bypassing Safety Controls	CSE Violation
	Energy Isolation	Failure to Identify or Control a Hazard
	Failure to Inspect	Failure to Secure Equipment
	Fall Protection Violation	Horseplay
	Improper use of tools/equipment	Inattentive to Hazards
	Line of Fire Positioning	Not Driving to Road Conditions
	Not Fit for Duty	Overconfident
	Trying to Gain or Save Time	Using Uninspected Equipment
	Working without Authority / Permit / Incorrect Permit	Workplace Violence

Systemic Failures	*From the below list, choose all of the SHC Processes that **should** have identified and prevented the **Unsafe Conditions or Acts** from occurring but didn't.*		
Job/System Factors (Choose Any That Apply)	Bulletin Reviews	Communication/Reinforcement	DVIR/Pre-Trip
	Employee Engagements	Equipment Inspections	Master JHA
	Policies	Site Inspection	SOP
	Standard/COP	Strong Card	Training
Personnel Factors (Choose Any That Apply)	Inadequate Culture Building	Inadequate Job Planning	Inadequate Motivation
	Inadequate Policies	Inadequate Training	Missing Policy
	Missing Training	Poor Brothers' & Sisters' Keeper	Attitude
	Poor Communication	Rogue Employee	

Root Cause:	*(It's common for a symptom to be confused with a root cause. A symptom is a signal or indicating factor that may exist because of the root cause, but by itself is not the cause)*	
Root Cause Why did Unsafe Acts/Conditions Occur; what led to Systemic Failure?	Inadequate Culture Building	Inadequate Job Planning
	Inadequate Motivation	Inadequate Policies
	Inadequate Training	Rogue Employee
	Missing Training	Poor Brothers' & Sisters' Keeper Attitude
	Poor Communication	Rogue Employee

STRONGHOLD Companies	INCIDENT REPORT	SHC034 09-23 V.7
	This report ***follows*** the appropriate notification to the management team; and must be completed and submitted to the Health and Safety department within 24 Hours of any incident.	**SHC Incident #:**

CORRECTIVE ACTIONS				
(CA) is the Reactive activities taken to correct and/or minimize the INCIDENT THAT HAS OCCURRED. Corrective action is the activity of reacting to an incident and getting it under control through containment actions. These are 'immediate' types of actions.				
Corrective Action	**Responsible Person**	**Email**	**Due Date**	**Completion Date**

PREVENTATIVE ACTIONS				
A Proactive activity that is taken to address the cause of an incident that COULD OCCUR AGAIN, if not addressed. These are systemic controls or adjustments to the system.				
Preventive Action	**Responsible Person**	**Email**	**Due Date**	**Completion Date**
